PMI CERTIFIED PROFESSIONAL IN MANAGING AI

The **PMI Certified Professional in Managing AI (PMI-CPMAI)™** is a game-changing certification from the Project Management Institute (PMI) designed specifically for professionals who need to lead, coordinate, and govern artificial intelligence initiatives.

What You'll Learn

- **The Need for AI Project Management:** Discover why AI projects struggle, how iterative delivery supports success and how CPMAI ensures ethical, effective outcomes.
- **Matching AI with Business Needs (Phase I):** Align AI solutions to real business needs, assess feasibility, define ROI and set clear project scope.
- **Identifying Data Needs for AI Projects (Phase II):** Select the right data, ensure compliance and build the infrastructure to support AI.
- **Managing Data Preparation Needs for AI Projects (Phase III):** Transform raw data into AI-ready inputs through quality checks, augmentation and compliance controls.
- **Iterating Development and Delivery of AI Projects (Phase IV):** Build and validate models, from machine learning to generative AI.
- **Testing & Evaluating AI Systems (Phase V):** Test and monitor AI models, address drift and ensure results are reliable, explainable and aligned with goals.
- **Operationalizing AI (Phase VI):** Operationalize AI responsibly, manage governance and plan for continuous improvement.
